What batteries do solar lights use?

They are easy to install (remember to keep your solar light switch on). These environmentally friendly 1.2V 600mAh Ni-MH rechargeable batteries are perfect for solar powered garden lights,landscaping lights,or lawn lights that will run on AA batteries. These batteries can be charged by solar lights or battery charger.

Can solar lights run on AA batteries?

These environmentally friendly 1.2V 600mAh Ni-MH rechargeable batteries are perfect for solar powered garden lights,landscaping lights,or lawn lights that will run on AA batteries. These batteries can be charged by solar lights or battery charger. Suggest to use battery charger when sunlight is not enough. Power life is up to 24 months.

Can you replace a battery with a solar light?

The voltage must be exact when you replace your batteries for solar lights. If the existing battery is a 1.2V, you must replace it with a 1.2V battery. If the existing battery is a 3.2V, you must replace it with a 3.2V battery. Voltage is not interchangeable, since the circuitry is different.

What AA batteries are used for solar landscape lighting?

These AA,1.2-Voltbatteries are designed for solar landscape lighting and are charged by the light's solar panel with no other equipment necessary. These batteries are intended for use only with solar landscape lighting products. How can we improve our product information?

Should I buy a battery for my solar lights?

Before buying a battery for your solar lights, it's important to check the voltage and amperage they need. For instance, if your light needs 3.7V and 2A, your battery should match these requirements. If the battery's voltage is too high, it could harm your lights. If it's too low, the lights won't get enough power to function properly.

About this item 1.2-volt 600mAh AA Ni-MH rechargeable batteries Dimension: Height 50mm,Diameter 14mm,Power life up to 25 months Especially fit for Intermatic and Malibu Solar Graden light, and can replace ...
