3dr solo battery balance

Ensure that both the controller and Solo are powered, the controller has at least 50% battery remaining, and the app is connected to Solo Wi-Fi. The total update process can take up to 10 minutes.

There is an custom bootloader on the device, so when I figure out more about the battery, it"s possibly to upgrade it using a standard FTDI cable and the avrdude tool (for Linux,Mac,Windows).

Remove batteries smart card from original battery and wire balance connector to js4 connector and power connector has to convert to whatever 4s battery you want.

OK I think I wore out google looking for others and the Solo Gang-charger solution! I have read lots on the 3dr SOLO battery, and im NOT a Total NOOB when it comes ...

Is working. Set includes the Pelican Case, the 5DR Solo Quad drone. we try are best to go through each item and examine them thoroughly. If you get an item you. The set has been well ...

The 3DR solo app is discontinued and the 3DR servers no longer exist (so there"s no way to get past the "preflight update required" screen). All of your batteries will need to be replaced, since ...

Hey Guys, I have already chopped the solo charger, XT60 connector"d it and charged it with my SKYRC 4 in 1, however no matter how much current you choose to try and ...
