

## 3dr solo quadcopter kit with spare parts batteries and backpack

Does the 3DR Solo quadcopter have a camera?

The 3DR Solo Quadcopter lets you attach a compatible GoPro (Hero 3+&4) for capturing aerial shots. Please note that the drone itself doesn't include a built-in camera. You need to buy a GoPro separately. The shots captured by the drone are super stable, thanks to the attached gimbal that enables smooth & shake-free footage.

What's in a 3DR bundle?

Get it all with this bundle, which includes a Solo with the Solo Gimbal preinstalled, along with a Solo battery and 8 propellers, all shipped in the 3DR backpack. It's the smartest, easiest and most affordable way to get everything you need in one package.

What is a Solo quadcopter with Gimbal?

Designed from the ground up as a companion to the GoPro HERO, the Solo Quadcopter with Gimbal from 3D Robotics features aerial imaging-specific flight modes including Cablecam mode and Follow Me. A quad-rotor configuration, flight stability and autonomous flying are enabled thanks to a twin computer flight control system.

What is a 3 axis solo gimbal?

The 3-axis Solo Gimbal taps Solo's computers to execute perfectly stable shots automatically. It's also the only gimbal to offer exclusive in-flight GoPro control, charging and wireless HD streaming from your GoPro direct to mobile. Pack or unpack your Solo in under a minute with this durable, custom-cut backpack travel case.
