

3DR Solo battery packs have lots of information that the average user will never see, they are also very nicely calibrated for voltage (cells and pack) as well as current. Some of the ...

With a 5200 mAh capacity, the Smart Battery for Solo Quadcopter from 3D Robotics allows the aircraft to fly for up to 25 minutes unladen and up to 20 minutes with Solo ...

This topic specifies the charging interface to the Solo battery (this is needed if you want to build chargers, charging pads, etc). See the Battery Bay page for information needed to develop ...

The 3DR SOLO Smart Battery is a high-quality rechargeable battery designed for professional drones. With a capacity of 5200 mAh and a voltage of 14.8 Vdc, it provides a long flight time of up to 25 minutes. This smart battery is compatible ...

A comprehensive review of the 3DR Solo Smart Battery, a rechargeable lithium-polymer battery that works with the 3DR Solo drone. Learn about its features, benefits, drawbacks, and comparison with similar products.

This listing includes an original 3DR Solo smart battery charger and a full set of replacement propeller blades. Ideal for Solo drone users needing spare parts or replacements to keep their ...

The Battery Management System (Smart Battery) does the balancing internal to the Solo battery (just like the stock charger). You just tell the LiPo charger to "charge", not "Balance charge". In fact I'm just using the stock ...

Figure 2.1.10.1: Solo Parts Battery Solo is powered by the rechargeable Solo Smart Battery that provides up to 25 minutes of flight time per full charge. (Keep in mind that flight time depends on payload, wind conditions, elevation, ...

This listing includes an original 3DR Solo smart battery charger and a full set of replacement propeller blades. Ideal for Solo drone users needing spare parts or replacements to keep their aerial system flight-ready.

Because the 3DR SOLO is powered by electric motors and lithium polymer smart batteries, and the manufacture 3DR does not have a specified TBO or specified periodic maintenance, ...

With a 5200 mAh capacity, the Smart Battery for Solo Quadcopter from 3D Robotics allows the aircraft to fly for up to 25 minutes unladen and up to 20 minutes with Solo Gimbal and camera attached.
