

Combine a properly sized solar panel with the Adafruit USB / DC / Solar Lithium Ion/Polymer charger and a Lithium Ion battery and your project will stay powered with energy from the ...

Make your projects to go green this summer with our specialized USB/Solar Lithium Ion Polymer Battery charger! This charger is a very unique design, perfect for outdoor ...

Make your projects to go green this summer with our specialized USB/Solar Lithium Ion Polymer Battery charger! This charger is a very unique design, perfect for outdoor projects, or DIY iPod ...

Separate DC or Solar Input - Two pads on the side can be used to connect a 5 ~ 18V power supply, which can be used instead of USB. If the input is a solar panel, the ...

The Adafruit bq25185 USB / DC / Solar Charger Board uses the new bq25185. It is a nifty charger chip which has a lot of flexibility for different kinds of batteries (LiPoly, LiIon or ...

The Adafruit bq25185 USB / DC / Solar Charger with 3.3V Buck Board uses the new bq25185 is a nifty charger chip with fairly high charge current, power path support, and the ability to charge from USB, DC or solar power. It's ...

This board is meant to be everything you need to power your 3.3V electronics: simply connect a 500mAh or larger battery to the JST PH 2-pin port, then charge it when you ...

The MagPi Magazine Issue 145 features the Adafruit Universal USB / DC / Solar Lithium Ion/ Polymer charger: Charging Lithium Ion batteries via a solar panel can be very ...

This board is meant to be everything you need to power your 5V electronics: simply connect a 500mAh or larger battery to the JST PH 2-pin port, then charge it when you can from USB or DC/solar.

The Adafruit Universal USB / DC / Solar Lithium Ion/Polymer Charger can use USB, DC or Solar power, with a wide 5-10V input voltage range! The charger chip is super smart, and will reduce the current draw if the input voltage starts to dip ...

The Adafruit bq25185 USB / DC / Solar Charger with 5V Boost Board uses the new bq25185 is a nifty charger chip with fairly high charge current, power path support, and the ...

This board is meant to be everything you need to power your 5V electronics: simply connect a 500mAh or larger battery to the JST PH 2-pin port, then charge it when you can from USB or ...

Adafruit Industries, Unique & fun DIY electronics and kits Adafruit bq25185 USB / DC / Solar Charger with 3.3V Buck Board : ID 6092 - We're always on the look out for better ways to make projects portable: being ...

This charger is the only one you need to keep all your Lithium Polymer (LiPoly) or Lithium Ion (LiIon) rechargeable batteries topped up. No matter the power source at your ...

The Adafruit bq25185 USB / DC / Solar Charger Board uses the new bq25185 is a nifty charger chip which has a lot of flexibility for different kinds of batteries (LiPoly, LiIon or LiFePO4), charging rates (250mA, 500mA, ...

The Adafruit USB DC Solar LiPo Charger is a versatile and portable charging module designed for lithium polymer (LiPo) batteries. It allows for charging via solar panels or a USB power source, ...
