

The GeekVape Aegis Solo 3 Built-In Kit comes with a powerful 3000mAh internal battery, offering the same durability without the need for external batteries. Featuring advanced biosensing technology, it provides ...

Hey everyone, I posted awhile back about some issues I was having with my GeekVape Aegis Solo mod and how I can't use it anymore cause the battery cap simply won't screw back into ...

Which batteries did you get? If you inadvertently bought "protected" batteries (which are a tad longer than unprotected batteries) they probably won't fit in an Aegis Legend. If the Aegis Legend has a design flaw, it ...

The battery door is difficult to screw on If you are having trouble screwing on the battery door of your GeekVape Aegis Solo, there are several potential causes and solutions. ...

When the battery voltage is below a certain threshold, the battery is first charged with a small current, which is also called restorative charging. In order to protect the battery, when the battery is over-discharged, the battery first charges with ...

And I was hoping to find one that has a battery door per say instead of a cap you screw on. I saw some recommendations about the Lost Vape Thelema and saw they have a solo battery ...

Geekvape E100 510 Adapter is designed for Geekvape E100 (Aegis Eteno) Kit / Geekvape E100i Kit 3000mAh to be compatible with 510 tanks. Kindly note that the pictures are for reference...

If you inadvertently bought "protected" batteries (which are a tad longer than unprotected batteries) they probably won't fit in an Aegis Legend. If the Aegis Legend has a design flaw, it would be the battery door in my opinion.

The long-awaited single 18650 platform with 100W of maximum output and top-tier endurance is finally unlocked by the GeekVape AEGIS SOLO 100W Starter Kit, carrying on the history of the AEGIS series, and is designed to partner with ...

If you inadvertently bought "protected" batteries (which are a tad longer than unprotected batteries) they probably won't fit in an Aegis Legend. If the Aegis Legend has a ...

I also dropped one of my S100 Aegis Solo mods and it suffered a similar failure to the L200. But it still works so I haven't pulled it apart yet. I have a T200 Aegis Touch which I've dropped a couple of times hard enough to break the tank ...

The rugged Geekvape Aegis Solo 3 Kit delivers durable 5-100 W performance with a 4,000 mAh (built-in or 18650) battery, USB-C fast charging, IP68 protection, and includes the 5.5 mL Z Sub-Ohm 2021 tank compatible with ...

Embark on an epic journey of discovery with the Geekvape Aegis Solo 3 Kit, a cutting-edge device designed for fearless adventurers and dedicated vapers. Paired with the Z Subohm 2021 Tank, this kit combines innovation, durability, ...

The Geek Vape AEGIS SOLO 100W Box Mod is the follow-up to the Aegis Legend and Aegis Mini, deploying a much-needed single 18650 platform with 100W of maximum output while maintaining top-level durability and user ...

Hey everyone, I posted awhile back about some issues I was having with my GeekVape Aegis Solo mod and how I can't use it anymore cause the battery cap simply won't ...

The Geekvape Aegis Solo Kit is a compact and powerful device designed for vapers seeking both durability and performance. Equipped with a single 18650 battery, this rugged device delivers up to 100W of output and is perfect for sub ...
