

Does Aldi charge electric cars?

Charging your electric car at ALDI while you shop is hugely convenient, but whether it's free depends on the store and charger provider in question. While some ALDI car chargers are free, others have payable rates of 20-60 pence per kWh, so it really does pay to do your research.

How do I use an Aldi EV charger?

Using Aldi EV chargers follow the same rules as other public electric car chargers. Locate the charging station in the Aldi car park, register for an account, use a mobile charging app, or RFID card to initiate the charging session, connect the charging cable securely, and follow on-screen instructions to start the charging session.

Does Aldi offer EV charging points?

Aldi offers a diverse range of public charging points. Rates of 7kW, 11kW, and 22kW EV chargers are available from a variety of providers - Shell, BP Pulse, and Pod Point chargers. In total, the majority of Aldi electric car chargers are Shell AC chargers, rated at 22kW. All Aldi EV chargers have Type 2 connectors.

Does Aldi have a car charger?

Aldi isn't going to replace the local auto parts store anytime soon, but the grocer is known to trot out a few car-related accessories from time to time, including storage solutions, car covers, cell phone holders, and even tire inflators. USB car chargers can be found in a lot of places, from big box stores to your local pharmacy.

How much does Aldi EV charging cost in the UK?

Aldi EV charging costs in the UK depend on the stores; some Aldi battery chargers offer free charging, while others require payment. Shell chargers at Aldi have specific pricing: Fast: 59p/kWh, Rapid: 79p/kWh, Ultra Rapid: 85p/kWh.

Does Aldi offer free EV charging?

Some offer free EV charging, while others may charge a fee. If you come across an Aldi EV charge point that doesn't offer free charging, the Aldi electric car charging costs start from approximately 44p/kWh at Pod Point 7kW chargers and 59p/kWh for 7kW Shell chargers.
