

Does Aldi offer a solar & battery package?

The Aldi solar and battery package is being offered through a partnership between Aldi and Tempo Group, which already supplies the supermarket chain with its low-cost TVs, consumer electronics and appliances.

Does Aldi have a solar system?

Tempo Group has long supplied Aldi with cheap electronics, and is partnering with the German supermarket company to launch Aldi Solar: an "all-inclusive package from \$7,999*" that includes 6.08kW of Altius rooftop solar panels, a 5kW hybrid inverter and a 5.1 kWh battery -- all fully installed.

Does Aldi sell EV chargers?

Aldi has also waded into portable EV chargers with its "Best Buys" specials, while stocks last. With minimal detail and a one-year warranty, this \$199 temporary offer could expire faster than a heavily discounted tub of yogurt - and should be approached with the same level of apprehension.

Does Aldi offer solar panels?

Unlike most other solar deals, the Aldi offer includes both panels and a backup battery with customers able to get access to bespoke software and professional installers, who have been specifically chosen because of their knowledge of electrical systems and are skilled in solar installations.

Does Aldi sell solar panels in Melbourne?

Aldi is shaking up the home solar market with a new, Melbourne-only offering. The multi-national, ultra-cheap retailer is now marketing a solar and battery package that includes 6kW of solar panels, a 5kW hybrid inverter and a 5.1kWh lithium ion phosphate (LiFePO4) battery, all for the princely sum of \$7,999 - inclusive of installation.

Are Aldi solar batteries recalled?

These older batteries were recalled by the ACCC in Australia. "The batteries in the Aldi offering can deliver high quality power for over 15 years and the solar panels have a 25-year performance guarantee" he said. All products in the ALDI Solar system have a minimum 10-year warranty.
