

Can a solar charger charge a car battery?

Smaller 12v camping solar chargers are more portable and can be used to charge power banks. Portable solar chargers come with a built-in regulator to protect the battery system. All our chargers are compatible with car batteries, leisure batteries, GEL and AGM types. Want help choosing a solar panel kit? Contact a Sunstore expert Sale! Sale! Sale!

What is a portable solar charger used for?

Portable solar chargers are best used to power small electrical items, such as smartphones and portable battery packs. They can be perfect for topping up the batteries of devices you might take on a camping trip, but generally aren't much help when it comes to feeding more power-hungry products, such as televisions, portable fridges and kettles.

What is a 10W solar charger?

This is a 10W solar charger with a single USB port, ideal for keeping battery packs topped up while on the move or camping. A respectable power output places this versatile panel somewhere in the middle of the range, delivering more energy than a small trickle charger but less than a larger and more expensive solar panel.

Do solar chargers come with a battery pack?

You'll find that most solar chargers come with a battery pack as not all of them can be plugged directly into a device. If you're planning an outdoor adventure where you're more likely to stumble across an Emperor penguin than a mains plug, it's worth investing in a solar charger to keep your gadgets in full working order.
