How do arlec solar LED rope lights work?

The Arlec Solar LED rope lights provide self contained LED festive lighting. Power to operate the LED's is derived from batteries charged using the solar panel located on the top of the main unit. The Festive LED lighting can be used to decorate gardens, or to light ponds, paths or steps for all festive occasions and parties.

Does arlec 330 light have a battery?

The Arlec 330 Lumens LED Movement Activated Sensor Security Solar Light also has a sealed battery, so unfortunately, it's not designed to be replaced or upgraded to a larger capacity. However, the supplied battery is typically sufficient to power the light throughout the night, as the light only activates when it detects movement.

Are arlec solar lanterns rechargeable?

Welcome to the Bunnings Workshop community @youngbrokh. It's wonderful to have you join us, and many thanks for your question about Arlec solar lanterns. The rechargeable batteries in those units are sealed cells and non-replaceable. However, you should expect to get hundreds of recharges on them during their lifespan.

What should I do if my arlec solar light is faulty?

It's wonderful to have you join us, and many thanks for your question about an Arlec solar light. From your description, it sounds like the product is clearly faulty. The best thing to do would be to return the light to your nearest Bunnings store with your proof of purchase so the team there can swap it over for you.
