

What is a solar battery maintainer?

A solar battery maintainer is a device that derives its power from solar energy to create a slow-but-steady charge for different applications. It is used to maintain battery life for cars, boats, and outdoor equipment like ATVs or lawn tractors. Some models can even charge a cell phone.

How do I choose a solar battery maintainer?

The first step is to choose the level of power you need. Although most battery maintainers are designed to charge 12v batteries, the accompanying solar panels can vary. The solar panels' output can range from 2.4W to 15W. The higher the watts, the faster the charge.

Can a Coleman solar battery maintainer be used with a power box?

A: The Coleman 2.5W solar battery maintainer is designed to maintain any 12V battery, when not in use. This solar panel compensates for the natural drop in a batteries charge over time. It is perhaps not best used in conjunction with your power-box. Helpful?

How big is a Sunway 5W solar battery maintainer?

Measuring only 5.05" x 13.9", the Sunway 5W Solar Battery Maintainer is the perfect size to carry with you on all your adventures whether those adventures involve a car, motorcycle, ATV, or jetski. Do not let its diminutive size fool you, this battery maintainer still has the power and durability you need.
