

Why should you buy a Sola dive light?

With visibility being such a key factor to getting the most out of your dive, the high performance LEDs and thoughtful craftsmanship of the SOLA will quickly win you over. Factory sealed, tested and certified to the FL-1 Standard, the lights are guaranteed to perform.

What happens if a Sola light is accidentally turned on?

If your light is accidentally turned on it can drain your battery before a dive, or worse, can overheat and cause permanent damage. It is important to remember that all Sola lights must be water-cooled (i.e. fully submerged) during regular use. Travel Lock Out Mode is programmed into all Solas, except the Dive & Photo 500 & 800.

How long does a Sola take to charge?

After about 5 seconds of tapping, plug the charger all the way in to the Sola. The resulting power surge can activate the internal circuit and will allow the Sola to power up again and accept the charge. The Sola can take up to 6 seconds to begin charging, so be patient while tapping and after plugging it in fully.

Do Sola lights need to be water cooled?

It is important to remember that all Sola lights must be water-cooled (i.e. fully submerged) during regular use. Travel Lock Out Mode is programmed into all Solas, except the Dive & Photo 500 & 800. Travel Lock Out Mode is initiated by holding the toggle switch forward for 5-7 seconds while the light is off.

Why does my Sola light need a full charge?

This is normal, but may require a full discharge in water then full charge to ensure the light is fully functional. **BACK TO TOP WHICH CHARGER DOES THE SOLA NEED** There are 3 different chargers; Sola 1 Amp Charger, Sola 2 Amp Charger, Sola Fast Charger. This is to make sure the Sola charges safely as quickly as possible.

Do Sola lights change color when charging?

Older generation Solas may not change the LED color when charging. This is normal, but may require a full discharge in water then full charge to ensure the light is fully functional. **BACK TO TOP WHICH CHARGER DOES THE SOLA NEED** There are 3 different chargers; Sola 1 Amp Charger, Sola 2 Amp Charger, Sola Fast Charger.
