

Does Con Edison offer a solar incentive program?

In the Con Edison service territory (New York City), Con Edison offers a solar incentive program with a rate of \$0.20 per watt. In upstate regions, the incentive rate is \$0.30 per watt.

Why is Con Edison charging me for solar panels?

Solar panels can offset your overall energy consumption, but they typically do not reduce your monthly demand. Demand charges cover Con Edison's cost to maintain our facilities to meet our customers' maximum energy needs. I got solar panels so I'd never have to pay another Con Edison bill ever again. Why are you still billing me?

What is the value of my private solar generation credits?

The value of your private solar generation credits is the same whether you purchase your supply from an energy service company or directly from Con Edison. However, depending on your specific contract, you may be responsible for any non-usage-based or value-added service charges.

Does Con Edison offer a level payment plan?

No, Con Edison does not offer a level payment plan. Under the Level Payment Plan, Con Edison calculates an average monthly payment based on your billing history, allowing you to spread your energy costs evenly over the year.

How much does Con Edison adder cost?

For Con Edison Nonresidential projects that are 1 MWac and greater in capacity, the adder is \$0.20 per Watt DC. Below you will find incentive levels for Con Edison nonresidential, commercial, and canopy projects that were offered in past blocks that are now closed.

Does Con Edison cash out the solar 'bank' at the end of the year?

For Con Edison customers who are not small residential, there is no cashing out of the solar 'bank' at the end of the year. Instead, these credits apply to future usage (SC-2). For SC-8 and SC-9 customers, the excess energy generated is converted to dollars and applied against remaining billing items such as demand charges.

In all likelihood, your bill will probably say Rate: EL1 Residential or Religious, which is the default option for residential Con Edison customers and comes with an \$18 monthly basic service charge. In this plan, delivery charges ...
