

# Container battery system quotation in Saudi Arabia 2026

Is Saudi Arabia a leader in battery energy storage?

The Kingdom enters the top ten global rankings for battery energy storage with ambitious future capacity goals. Saudi Arabia is establishing itself as a significant player in the energy storage sector, now ranked among the top ten global markets for battery energy storage.

How much battery storage will Saudi Arabia be able to deploy?

According to recently reported remarks from energy minister Prince Abdulaziz bin Salman Al Saud from an event held in the Kingdom, the country is targeting the deployment of 48GWh of battery storage by the end of this decade.

Will Saudi be the third biggest BESS market in 2026?

And if we add recent tenders, this will lead to a whopping 33.5 GWh of BESS capacity by 2026. This would make Saudi the third biggest global BESS market after the USA and China. While KSA is certainly leading the pack, increasing deployments can be witnessed all across MENA and the Gulf or GCC region in particular.
