

Containerized renewable power quotation in Guernsey 2026

What is Guernsey's energy strategy?

The strategy outlines that Guernsey will achieve these aims by creating more renewable energy in the form of both solar and offshore wind arrays, and by installing a second subsea cable to France with a 100-Megawatt capacity.

What does energy independence mean for Guernsey?

Greater energy independence- A system where a greater and significant proportion of our community's energy needs are supplied through local energy sources. This will increase resilience by reducing exposure to external and geopolitical factors. The Committee for the Environment & Infrastructure is developing an Electricity Strategy for Guernsey.

Will Guernsey have a new energy policy in 2019?

The Energy Team are reviewing the current Energy Resource Plan which was published in 2011, with a view to bringing a new energy policy to the States of Guernsey in 2019.

What is the energy transition in Guernsey?

In Guernsey, we currently rely on fossil-fuel based systems of energy production and consumption and operate a thermal power station. However, it is recognised that as part of the response to climate change, there is a need to transition to an energy mix with limited, if not zero carbon emissions. This is often referred to as the energy transition.

Does Guernsey need a green economy?

It is essential that Guernsey can manage its own transition to a green economy effectively and so a strategic direction must be set, along with a market structure that supports this, and provide certainty to the energy industry. The Electricity Strategy was approved by the States of Deliberation in September 2023. What was proposed?

Does Guernsey Electricity need a 'accounting unbundling' exercise?

Guernsey Electricity will be required to undertake an 'Accounting Unbundling' exercise which involves separating the accounts associated with various activities undertaken within the business. This is needed to ensure transparency and fairness within the market.
