

Controller box for solar water fountain battery

What is the best 24V solar water fountain kit?

The AquaJet 24V Solar Water Fountain Kit Night and Day is one of the most reliable and durable pumps on the market today. Silicon Solar is proud to offer this great pump to our customers. WOW!

Do you need a battery box inside a water pump?

Simple keep the battery box inside(doesn't need to be connected to the pump,just connect to the solar panel). Like all batteries,this will let your battery last 50% longer vs. leaving in the old all winter. The AquaJet series kit is a plug and play kit which requires minimum maintenance.

Is Aquajet a solar water fountain?

The AquaJet 24V Solar Water Fountain Kit Night and Day is the perfect pump for most applications. It is completely Solar so no electric to worry about. The kit comes complete,so you do not have to buy individual pieces for your water feature.

How does a solar controller work?

There is typically a solar pack inside that does not need sun every day; it charges and stores energy in the battery within the controller via solar panels. Solar and battery powered controller technology continues to evolve. You can add sensors for freeze,wind,and rain to controllers for better performance.

What is a solar water pump & how does it work?

It is completely Solar so no electric to worry about. The kit comes complete, so you do not have to buy individual pieces for your water feature. The pump is a simple design to allow customers to use it in many different applications - water fountains, ponds, waterfalls or just about any other garden design you can think of.

Should you use a battery or solar powered controller?

Using a battery or solar powered controller reduces the area's carbon footprint. Many of these types of controllers have options for multiple start times,multiple programs,and a pump master valve feature for full customization. Additionally,battery operated controllers are often waterproof and can be installed inside of a valve box.
