

What is a solar battery cover?

Designed to blend seamlessly with your outdoor décor, this solar battery cover not only offers robust protection but also enhances the aesthetic appeal of your setup. Features: Superior Material: Constructed from marine-grade aluminum, ensuring long-lasting durability and resistance to harsh weather conditions.

Can I cover a solar battery?

We're often asked "can I cover a solar battery". Solar battery covers are used for the same reason a solar inverter cover is used. They block any harmful direct sunlight and allow sufficient airflow to pass through the sides and top of the cover for cooling purposes.

Do solar panels need to be covered?

Maintaining your solar panels is essential and includes cleaning. Owners who will be away from home for a long time may cover their solar panels to prevent them from becoming overly dirty. Do Solar Panel Covers Protect Against Hail Damage?

How to choose a solar panel protective cover?

There are also hard protective shell systems that can be installed over the top of solar panels. These shells are highly protective for the long term. No matter the reason you install a solar panel protective cover, it is essential you choose the right one. The panel cover should be designed to offer protection for your specific solar panel system.

Which solar inverter covers are available?

We have solar inverter covers for Fronius Primo and Fronius Symo inverters, Sungrow and Sungrow Hybrid inverters, Solaredge inverters and Goodwe inverters as well as battery covers for the Tesla Powerwall and Sungrow battery plus many more. We chose to design a universal cover which means our covers have no cutouts in the front panel.
