

Customized container pv kit quotation for Panama project

What is a solar panels on shipping container?

It not only transports the PV equipment, but can also be deployed on site. It is based on a 10 - 40 foot shipping container. Efficient hydraulics help get the solar panels ready quickly. Due to its construction, our solar panels on shipping container offers unmatched flexibility and maneuverability.

What are shipping container products & custom solutions?

shipping container products and custom solutions! High-quality modified shipping containers designed to provide durable storage solutions, workshops, DIY projects, construction storage or office space, and much more. Reliable and ready to roll wherever you need them.
