

Where can I get a solar quote in Australia?

Solar Calculator is able to refer you to many of Australia's leading solar companies. If you choose to go ahead and request quotes, you can be assured they're from companies that are genuine and reliable. There is no obligation to proceed with any of the installers we recommend. Our solar quote service is 100% free.

What is a solar quote service?

Our solar quote service is 100% free. We can provide you with a quote for any of your solar power needs. Be it panels, solar batteries, solar hot water or an off grid system. We are committed to protecting your privacy. We only use the personal information we collect in our quote form to provide services to you.

Do I need a quote for a solar installation?

There is no obligation to proceed with any of the installers we recommend. Our solar quote service is 100% free. We can provide you with a quote for any of your solar power needs. Be it panels, solar batteries, solar hot water or an off grid system. We are committed to protecting your privacy.

How does solarquotes work?

Using your postcode and the project details you provide, SolarQuotes' intelligent data-matching system connects you with fully qualified electricians and reputable solar and battery retailers in your area.

How many solar installers are there in Australia?

We have published 89,345 uncensored reviews of 2,976 solar installation companies. Most importantly, over the last 16 years we have steadily built a network of 535 solar installers across Australia that we trust to provide quotes through this website. And we have turned away hundreds more.

Should I compare solar quotes purely on price?

We recommend that you do not compare solar quotes purely on price. Each solar system is different, just as every rooftop and local conditions are different. Ensure that you receive a quote on a tailored system designed specifically for your property and, not just an off-the-shelf system. We recommend that you:
