Who is the leading solar EPC Company in New Zealand?

Leveraging on the 13 years of international experience in the solar industry and the support of all Ethical Power Group companies, we are quickly becoming the leading solar EPC company in New Zealand. With our global procurement capacity and expertise, we supply the best components and the most cost-effective solutions.

How are solar projects procured in New Zealand?

Solar projects are typically procured on the basis of an EPC contracting model (in large part due to the "bankability" of this model). However, EPC contracts are not common in the domestic construction industry - there is no market 'standard' form in New Zealand.

Where is solar EPC based?

Headquartered in Auckland, we operate across New Zealand. Latest news and insights. With 13 years of international experience in the solar industry, we are quickly becoming the leading solar EPC company in New Zealand.

Are solar EPC contracts common in New Zealand?

However, EPC contracts are not common in the domestic construction industry - there is no market 'standard' form in New Zealand. Consequently, in New Zealand the solar EPC contracts are either based on the FIDIC suite, or bespoke agreements used by private developers in other jurisdictions.

Should New Zealand consider a risk allocation for free issue solar panels?

However, the geographical distance of New Zealand from the solar supplier market, and the different legal jurisdictions in play are both factors to consider in deciding an appropriate risk allocation for defects in, or performance risk of, the free issue materials.
