

Does Victoria offer a home battery rebate?

Victoria's primary support for home battery installations is delivered through the Solar Homes Program run by Solar Victoria. While the state's solar battery rebate (a direct cash rebate) has ended, it has been replaced with a generous interest-free loan to reduce your upfront costs.

Is a solar battery rebate still available in Victoria in 2025?

Yes, a solar battery rebate is still available in Victoria in 2025, but not through the state government. The original Solar Victoria loan and rebate programs have officially closed. Instead, households can now access support through the federal Cheaper Home Batteries Program.

Can Victorians get a rebate for solar panels?

With the new Cheaper Home Batteries Program, Victorians can access additional government rebates and interest-free loans for installing batteries. Here's the ultimate guide to the latest solar rebates and interest-free loans for solar panels, solar batteries and hot water systems.

Who is eligible for a Victoria solar rebate?

Victoria solar rebate eligibility for homeowners: Property Ownership You are the owner-occupier of an existing home, or you own a home currently under construction, and the battery system will be installed there.

Property Value

Does Victorian Government offer solar rebates & interest-free loans?

Originally, the Victorian Government offered both rebates and interest-free loans under its \$1.3 billion Solar Homes Program. The battery loan component, which provided up to \$8,800 interest-free, helped thousands of homeowners store solar power for use after sunset or during outages.

How much does a solar battery rebate cost in Australia?

From 1 July, households that choose an eligible hot water system made in Australia will receive a higher rebate of \$1,400. The \$1,000 rebate is still available for customers that choose to install other hot water systems. Through solar battery rebates and loans, more than 20,000 solar battery systems have been installed across Victoria.
