

Government subsidy for container solar mounting in France

Does France offer subsidies for solar panels?

Many regions in France offer additional subsidies for solar panel installations. These initiatives can significantly lower initial costs. To qualify for government subsidies, it is recommended to hire certified professionals with the RGE (Reconnu Garant de l'Environnement) license.

How much does a ground-mounted solar project cost in France?

Broadly speaking, for ground-mounted solar projects located in mainland France, the FIT will be reduced from EUR 570 per MWh to EUR 30 per MWh. The minimum FIT will be in the range of EUR 18 to EUR 50 per MWh, and the average FIT will be around EUR 30 per MWh.

What is a solar subsidy?

It is a one-off subsidy paid for by energy suppliers to help cover some of the costs of panel installation and is aimed at solar thermal panels, whether just to heat hot water or also for the central heating system. Photovoltaic panels are not eligible.

Do I need a permit to install solar panels in France?

Before installing solar panels in France, it is important to determine whether a special permit is required. For most residential homes, bureaucratic procedures are minimal, but certain factors may require additional approvals.

Can solar panels be installed on a home in France?

Schemes to help with installing solar panels on homes in France have been continued this year, providing a number of options to help those making the switch to this kind of renewable energy.

Who financed the installation of photovoltaic panels in Bourg-en-Bresse?

It is financed by the CA3B (Communauté d'Agglomération du Bassin de Bourg-en-Bresse) Renewable Energy Fund. For the installation of photovoltaic panels, assistance can reach a minimum of 10% of the cost of eligible work, up to a maximum of EUR15,000, and up to 25% depending on the applicant's situation.

France's new feed-in tariffs (FITs) for the period from August 2023 to January 2024 range from EUR0.2077 (\$0.2270)/kWh for installations below 3 kW to EUR0.1208/kWh for arrays ranging in size ...
