

## **Government subsidy for containerized battery storage in Romania**

Does Romania offer a subsidy for battery energy storage systems?

From ESS News Romania has launched a new subsidy scheme for behind-the-meter battery energy storage systems to the tune of EUR150 million (\$158 million). With the funding secured from the Modernization Fund, the Ministry of Energy launched the competitive bidding call on Tuesday. Bids will be accepted until January 17, 2025.

Does Romania have a grant program for battery energy storage systems?

The Romanian Ministry of Energy has launched a grant program for battery energy storage systems developed in conjunction with existing renewable energy facilities - wind, solar, or hydro. From ESS News Romania has launched a new subsidy scheme for behind-the-meter battery energy storage systems to the tune of EUR150 million (\$158 million).

When will a battery storage grant be available?

Bids will be accepted until January 17, 2025. Under the scheme, grants will be available for battery storage systems built alongside existing renewable energy plants - wind, solar or hydro. The storage capacity should annually absorb at least 75% of the energy produced by the renewable energy facility to which it is directly connected.

When will a new battery storage system be able to be built?

With the funding secured from the Modernization Fund, the Ministry of Energy launched the competitive bidding call on Tuesday. Bids will be accepted until January 17, 2025. Under the scheme, grants will be available for battery storage systems built alongside existing renewable energy plants - wind, solar or hydro.

Developer and independent power producer (IPP) R.Power has been awarded EUR15 million (approximately US\$15.6 million) in non-reimbursable state funding to build its first large ...

The Romanian Ministry of Energy has launched into public debate a new state aid scheme of 150 million Euros financed by the EU Modernisation Fund for investments in energy ...

Polish solar developer and independent power producer (IPP) R.Power SA has obtained EUR 15 million (USD 15.5m) in grant financing from the Romanian government for a ...

In an accelerating investment wave, companies in Romania are combining BESS with solar power, hydropower and wind power, or building standalone energy storage facilities. ...

Romania's energy ministry has re-launched a competitive tender for battery storage projects, seeking to have at least 240MW/480MWh of energy storage facilities up and ...

## Government subsidy for containerized battery storage in Romania

<p>The Romanian Ministry of Energy launched a grant program funded by the Modernization Fund. It offers EUR150 million to support building battery storage systems ...

The government of Romania will distribute EUR 103.5 million (USD 109.3m) to back the deployment of commercial and industrial (C& I) battery energy storage systems (BESS) that should go online by 2025.

Romania invests EUR197M through NRRP to boost its battery industry, focusing on manufacturing, recycling, and 3.33 GW energy storage capacity. Discover how Romania aims to become a European battery leader.

Romania aims to rapidly develop the battery industry by committing to the training and retraining of 20,000 workers Romania signed today a Memorandum of Understanding with EIT ...

Learn about Battery Energy Storage Systems (BESS) in India, their role in enhancing RE integration, and how they contribute to a more reliable and efficient power grid.

How much money will Romania get for battery storage projects? The financial support in the form of direct grants was announced by the government in November 2022,reported by Energy ...

Romania has launched a new non-refundable funding program for battery energy storage systems to the tune of EUR150 million (\$158 million), this time dedicated to standalone ...

Transelectrica shows that, on January 1, 2025, the battery storage facilities had a total power of 137 MW and a capacity of 269 MWh. The data of the transmission and system ...

In its first, the Romanian government has allocated EU funds for two major battery energy storage projects via its National Recovery and Resilience Plan. A utility-scale solar-plus-storage site in the country's ...

Close-up of BESS containers at an LS Electric project. Image: LS Electric. LS Electric will deploy a 20MW/90MWh battery energy storage system (BESS) in Japan after it was awarded the contract through a competitive ...

Romania's Ministry of Energy has reopened its call to support projects of battery storage for renewable energy integration, seeking at least 240 MW and 480 MWh of ...
