

## Government subsidy for portable solar container in Italy

What are the new tax incentives for residential solar and storage systems?

As part of the fiscal stimulus program "Decreto Rilancio" the Italian government introduced new tax incentives for residential solar and storage systems. The new Ecobonus will set the stage for a sustained growth of the residential PV segment in Italy.

What is a solar energy subsidy & how does it work?

The incentive scheme was introduced to improve the energy efficiency of buildings and also protect them against earthquakes. The subsidy applies to PV installations and storage systems, with investors entitled to a tax credit of 110 percent on the costs.

What can be done to improve the bureaucratic procedures for solar projects?

According to Pinori, there is still a lot that can be done to improve the bureaucratic procedures for the realization of solar projects in Italy. The 50% eco-bonus for PV associated with sustainable-building projects - together with the Scambio sul posto - has been the main driver for solar energy development in Italy over the past few years.

What are the benefits of a 110% tax deduction for PV installations?

PV installations related to refurbishment projects, which in turn will lead to an improved energy efficiency, will benefit from a 110% tax deduction. In order to fully make use of the benefits of this policy, Italian installers will have to develop their competences and expertise dealing with further technologies related to PV-systems.

The Italian government will launch a EUR-200-million (USD 220.4m) energy income fund to help families experiencing financial difficulties install solar photovoltaic (PV) panels.

Transitional FER X: New Italian Incentives for Solar, Wind, Hydro and Biogas  
Tariff adjustments The tariff may be adjusted as follows: for photovoltaic plants replacing eternit or asbestos, +EUR27/MWh, for plants built on ...

This article will explore the changes in photovoltaic subsidy policies and analyze whether energy storage systems can provide an economic solution for owners facing policy ...
