

Government subsidy for retractable solar panel container in Norway

What are the new solar rebates in Norway?

Norway's clean energy agency Enova will increase the maximum PV system size eligible for rebates from 15 to 20 kW and the maximum subsidy amount from 1,250 to 2,000 NOK (\$226.7) per kW installed. In addition, new subsidies of up to 10,000 NOK will be introduced for energy management systems that are often installed alongside solar arrays.

Will Norway continue electricity subsidies in 2023?

There's some good news for residents of Norway struggling to cope with record high electricity prices of late. A package of NOK 7 billion should continue electricity subsidies for Norwegian households throughout 2023. The estimated subsidy for a power consumption of 22,000 kWh in southeast Norway would be NOK 33,000 in 2023.

How much solar power does Norway have in 2020?

In 2020, the newly installed PV capacity was around 31.7 MW and, in the previous year, new solar arrays totaled 51 MW. Norway had added 23.5 MW of solar in 2018; 18 MW a year earlier, and 11 MW in 2016. This content is protected by copyright and may not be reused.
