

Where can I buy a Ni-MH rechargeable solar battery?

Not available for purchase online. Please visit a Menards store for information and to purchase. These Performax(TM) Rechargeable Solar Ni-Mh AA batteries feature a 1.2-volt Ni-Mh rechargeable option and are designed for use with solar lights. They are the perfect solution for all of your battery needs.

Which battery is best for solar lights?

But the main drawback is the memory effect which reduces their capacity over time. NiMH(Nickel Metal Hydride): Most batteries used for solar lights are NiMH because they can hold more charge and last longer than NiCAD. They also don't suffer from memory effect issues, have a higher energy density, and are more environmentally friendly.

Should I buy a battery for my solar lights?

Before buying a battery for your solar lights, it's important to check the voltage and amperage they need. For instance, if your light needs 3.7V and 2A, your battery should match these requirements. If the battery's voltage is too high, it could harm your lights. If it's too low, the lights won't get enough power to function properly.

Does a Menards rebate apply to a special order?

Rebate is valid on special ordered products but does not extend to the special ordering of any normally stocked items. Not good with any other coupons or offers except Menards' coupons, Menards rebates and manufacturers' coupons. Multiple receipts may accompany one rebate certificate.

Does Menards offer a 11% rebate?

We're sorry, an error occurred during the search. Please wait several seconds and try again. *Please Note: The 11% Rebate* is a mail-in-rebate in the form of merchandise credit check from Menards, valid on future in-store purchases only.

Are powerowl batteries good for solar lights?

However, considering their longevity and reliability, I find the POWEROWL Batteries to be a worthwhile investment for anyone looking to power their solar lights effectively. The Brighttown Batteries for Solar Lights offer a capacity of up to 2,400mAh, which is enough for most solar lights to stay lit all night.
