

Mobile foldable pv system EPC service price in Czech

What is a solarfold mobile drive system?

The mobile drive system consists of a flexible drive unit mounted on traverses and can also be used for other solarfold PV power plants. On request, the mobile Solar Container can be supplied with the necessary accessories for complete independence. pay-back. Solarfold is far more than just a pioneering means of producing clean electricity.

Why should you choose a mobile PV system?

A mobile PV system permits a quick reaction to requirements as they change, and allows you to top-up during spikes in demand. Major construction sites require large volumes of electricity. Solarfold can produce clean and environmentally-sustainable electricity, particularly when immense volumes of energy are needed in inaccessible areas.

What makes KPV high performance modules so special?

KPV modules withstand highest snow loads (5400 Pa) and are extremely hail resistant (twice the IEC requirements!) All main components of these KPV high performance modules are of European origin, thus guaranteeing superior product quality for an extremely long life time.

If the site study has been done and the results have been shared with the owner and the EPC, the EPC contract should clearly acknowledge that the contractor has reviewed the results of the ...
