

That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact in design, easy to transport and quick to set up. This system is realized through ...

The Ministry of Energy has recently announced a call for proposals to support Romania's battery and solar photovoltaic (PV) manufacturing sectors, worth EUR199 million and funded through the NRRP.

Romania's distributed generation segment totals over 2,5 GW, deployed mainly in the past three years. Prosumers are an integral part of our sector, highlighting the benefits of solar energy as an affordable, accessible, and cost-effective solution.

Recently, our company completed the delivery of four 10-foot, 46kW foldable photovoltaic containers and five grid-connected energy storage systems in Romania. The ...

The Ministry of Energy has recently announced a call for proposals to support Romania's battery and solar photovoltaic (PV) manufacturing sectors, worth EUR199 million and ...

Romania has made significant strides in developing large-scale photovoltaic (PV) projects, contributing to its renewable energy goals. As of the latest data available, there are over 880 large-scale PV projects in Romania, ...

Discover how Romania deployed 46kW retractable photovoltaic containers with energy storage systems. This flexible, mobile energy solution is ideal for temporary power ...

Address Romania Request project pricing Project Overview This project is located in Romania and provides local customers with an integrated, mobile photovoltaic-storage power solution. ...

This project is located in Romania and provides local customers with an integrated, mobile photovoltaic-storage power solution. The system consists of four 10-foot 46KW foldable ...
