

Mobile solar unit EPC service price in South Africa

What does a solar EPC contractor do?

A solar EPC contractor oversees the full lifecycle of a solar energy project. EPC stands for engineering, procurement, and construction. Bilion Power Solutions delivers EPC services to homes and corporate clients across South Africa.

What is a Sola Sun EPC contract?

Committed to sustainability and innovation, we deliver top-notch engineering, procurement, and construction (EPC) services for commercial and industrial solar installations. With a single point of responsibility, Sola Sun EPC contracts ensure consistent quality control and adherence to industry standards throughout the project lifecycle.

What is a solar EPC?

Our solar EPC process delivers high-quality components and professional execution from start to finish. An EPC contractor manages the full scope of a solar project. This includes feasibility studies, design and planning, procurement, installation, and final commissioning.

Who is solarepc?

SolarEPC stands at the forefront of the energy and renewable energy industry, poised as a Pioneer leader in the field. Providing complete turnkey solar and battery energy storage solutions (BESS) power solutions for rooftop, commercial, ground mount and car port solutions up to mega watt scale PV projects.

What is an EPC contractor?

Companies delivering renewable energy projects such as solar are commonly referred to as EPC Contractors. In Africa, there is a long list of EPC contractors. These contractors typically execute and deliver projects within an agreed time and budget, commonly known as a Lump Sum Turn Key (LSTK) Contract.

Why do I need an EPC?

Entering into an EPC means you support cleaner power generation, lower your monthly expenses, and avoid the risks of owning a solar system. Contact Bilion Power Solutions to begin the process. South Africa has faced ongoing electricity challenges, leading to increased interest in solar power as a reliable alternative.
