

Who are the best solar companies in New Haven?

Here are the top companies we recommend for solar in New Haven: Green Power Energy has been in operation since 2009, serving thousands of homes and businesses across the Northeast. Green Power Energy has its own installation teams and our consultants are professional, low pressure, and educational. We work with a variety o...

How much does solar cost in New Haven?

The average price of solar is about \$2.29 to \$3.43 per watt in New Haven, so anything in that range is a fair price. Some prices may be too good to be true. If your installer quotes you way below the average price in your area, proceed with caution. Installers must charge fair prices to remain in business and provide you with 25 years of support.

Are solar incentives a good idea in New Haven?

Solar incentives and rebates can cut the cost of installing solar in New Haven by thousands of dollars. The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they purchase solar panels or battery storage.

Do solar panels need a battery?

Solar panels can operate and lower your electricity bill even without a battery. However, a solar battery might be a worthwhile investment in some cases. A battery can provide backup power and priceless peace of mind in places with prolonged grid blackouts or extreme weather events.
