

# Off-grid solar container shipping and installation cost in China

How to import and ship solar panels from China?

Importing and shipping solar panels from China can be a cost-effective way to access high-quality renewable energy products. By understanding the key considerations, choosing reliable suppliers, and working with an experienced freight forwarder like Tonlexing, you can streamline the import process and ensure a successful outcome.

Why should you buy an off grid Solar System?

One-stop complete off grid solar system for sale. Special customized system to meet the needs of home owners to achieve 7\*24 hours of power supply. Achieving energy autonomy is an investment with a high rate of return. Your factories, businesses, and farms will have 0 electricity bills for decades.

How are solar panels shipped?

Most solar panels are shipped via 20ft or 40ft containers. Depending on the quantity, you may choose between FCL (Full Container Load) or LCL (Less than Container Load). FCL: If you are importing a large number of solar panels, booking a full container is cost-effective and provides better security for your goods.
