

Italy's solar PV market grew by 30% year-on-year (YoY) in 2024 with the addition of 6.79 GW of new capacity, expanding the country's cumulative installed capacity to 37.08 ...

Electricity transmission system operator (TSO) Terna expects 224 MW of clean energy and storage sites in the northern region of its grid but only 22 MW in the southern, Calabria section of the network.

By 2026, Italy is expected to install about 39 GW of new RES capacity, with about 27 GW of PV. This is equivalent to an average annual growth of more than 6.5 GW for the period 2023-2026.

Chinese manufacturer Huasun and Italian developer New Time plan to jointly develop a 1 GW heterojunction-perovskite tandem solar line in northern Italy by the third ...

In 2022, Italy finally returned to Europe's GW Club, with 2.48 GW of new PV systems installed. Alberto Nadai, Area Sales Manager - Northern Italy at Q Cells, analyzes the different sectors ...

Iron Solar PV Park is a 35MW solar PV power project. It is planned in Sicily, Italy. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is ...

The Solarplaza Summit Italy provides a crucial high-level platform for PV professionals to meet, forge connections, and discuss the regulatory changes, technological ...

The measure aims to promote the expansion of agri-photovoltaics in the country, with the ambitious goal of installing at least 1.04 GW of advanced agri-photovoltaic systems by June 30, 2026. This initiative is part of a broader plan ...

Around 90% of the Italian PV installers offer energy storage ... The share of installers who offer storage systems increased to almost 90%. In recent years, the Italian PV market has grown ...

The PV storage market in Italy is also growing. The share of installers who offer storage systems increased to almost 90%. In recent years, the Italian PV market has grown steadily. In ...

Scoring System This country profile highlights the good and the bad policies and practices of solar rooftop PV development within Italy. It examines and scores six key areas: governance, ...

BNZ, an independent power producer (IPP) that develops, builds, and operates solar photovoltaic (PV) projects, has closed on the SPAs signed years ago for the acquisition of two greenfield solar PV plants with a

total ...

In this guide, you'll learn everything you need to know about photovoltaic systems in Italy, including how much they cost, how they work, and what kind of returns you can expect.

Italy's first solar auction under the transitional FER X incentive scheme drew 17.5 GW in project proposals and an additional 2.87 GW in wind bids, according to state-run energy ...

Listed below are the five largest upcoming Solar PV power plants by capacity in Italy, according to GlobalData's power plants database. GlobalData uses proprietary data and ...

This report received valuable contributions from several stakeholders and experts of Italian photovoltaic (hereafter, PV) market: entrepreneurs, manufacturers of PV modules and other ...
