

Should you install a solar battery in Colorado?

In Colorado, solar batteries make the most sense as a backup power system for peace of mind. Given the strong net metering program and generally low prices for electricity, you shouldn't expect a return on investment if you install a solar battery in Colorado.

What is Colorado solar for all?

Colorado Solar for All (COS4A) is a solar program that caters to moderate-to-low-income residents and disadvantaged applicants.

Can I get a solar & battery storage system for \$0 down?
