

Does California offer free solar & battery backup?

Home » Free Solar and Battery Backup: SGIP Funds Are Now Available California is making it easier than ever for low-income homeowners to go solar with free solar and battery backup systems through the Self-Generation Incentive Program(SGIP).

Does California have a battery backup program?

A home battery backup makes that possible. Even better,California has a special program called the Self-Generation Incentive Program(SGIP) that can help you pay for it,especially if you're already using solar power or thinking about adding it. SGIP offers a great opportunity for Californians to gain energy independence.

Are solar batteries cheap in California?

Solar batteries also qualify for the federal solar tax credit,so battery installations in California are about as cheap as they come. California's Self-Generation Incentive Program (SGIP) is a tiered rate structure incentive that provides rebates statewide for battery storage projects based on the capacity of the battery installed.

Can I get free solar & battery backup?

Don't miss your chance to receive free solar and battery backup to protect your home. The demand for SGIP funding is high,and the funds are expected to be depleted within a few months after the program opens on May 20th,2025. If you qualify for the program,Store Energy California is here to guide you through the application process.
