

What is a solar power booster?

The EverForce Solar Power Booster is designed to increase the output of a Photovoltaic (PV) panel by an average of 45%, thus significantly increasing the overall output of a PV system. The Solar Power Booster is compatible with all commercially available PV panels used in small (household), medium (commercial), and large (solar farm) PV systems.

What is Battery Booster?

Battery Booster is a small application that extends the battery backup of your laptop. It can be very useful when you need to work on your laptop for an extended period and don't have access to a power outlet. The program offers optimization of the Windows registry, web browser, and startup programs.

What is the best Booster PAC?

Bring on the power! With a high performance battery and up to 1500 Peak Amps, the ES5000 is the Booster PAC for professionals who need serious starting power. Multiple jumps between charges and 43 inch cables make the ES5000 as convenient as it is powerful.
