

Who is Sunshine Coast solar & battery?

Sunshine Coast Solar & Battery is passionate about the environment and providing high quality sustainable solutions for homes and businesses in South East Queensland. We pride ourselves on our workmanship and customer care. We design projects from concept to completion to ensure that you receive a tailored solution to suit your unique requirements.

Why do you need a solar battery on the Sunshine Coast?

The Sunshine Coast's abundant sunlight allows solar panels to generate excess energy. Solar batteries store this surplus energy, which can be used during cloudy days or at night, ensuring consistent power supply throughout changing weather. Why should I consider a solar battery?

Does batteries Sunshine Coast offer off-grid solar panels?

Apart from the off-grid solar battery systems offered, Batteries Sunshine Coast also provides the residents of Sunshine Coast with the option of having an on-grid system installed. This option is for anyone looking to make the most out of their solar panels and reduce their electricity bills.

Which home battery can withstand the harsh outside conditions of the Sunshine Coast?

Another home battery that can withstand the harsh outside conditions of the Sunshine Coast is the SunRise Maxi. This outdoor solution for your home has a fully autonomous design and provides homeowners with battery and solar power in the most efficient way possible. It can be installed outside and retrofitted to a homeowner's existing solar system.

Where is the Sunshine Coast best for solar energy?

From the coastal region of Caloundra to Noosa, and the expansive hinterland region from the Glass House Mountains to Eumundi and Gympie, the Sunshine Coast enjoys warm weather and plentiful sunshine throughout the year. Sunshine Coast homes and businesses are primed for high-quality solar energy systems.
