

Keep your liftgate batteries charged with our boost charger. Safe and reliable, the plug-and-play features of this system make installation simple, with a patented feature that ...

About Purkeys Established in 1990, Purkeys has always focused on providing products that charge and protect batteries--and other cool stuff--on big trucks, including inventing the first ...

Maxon offers a host of industry- leading charging solutions for auxiliary batteries. Most of these solutions help optimize the re-charge of batteries by making the most out of the power that is available. Only solar panels add additional power ...

Research shows that most road calls are related to power failures. The WALTCO Solar charging solution resolves this problem by generating power through solar panels on the roof of your ...

The first of its kind, the Dual Charging System, (or DCS) was engineered specifically for charging both liftgate and pallet jack batteries. The DCS can save time and reduce fuel costs by making ...

Dead batteries on liftgates and pallet jacks are a thing of the past. The newest charging solution from solar industry leader Go Power! pairs the best-selling solar charging system with its newest component: The Go Power Auto Switching ...

Direct(TM) is a single source liftgate charging system that controls and extends the charge time. The Direct(TM) can be installed to charge liftgate batteries from any one of the following power sources

Solar charger With solar power your liftgate battery never dies, it keeps charging even when your vehicle is stationary, and never overcharges. This means you can put an end to stops caused by power problems and maximize the uptime ...

The resulting loss of liftgate function can have a negative impact on operations and bottom line. The 100-watt eCharge solar battery charger is easily installed on any vehicle ...

Solar Powered Liftgate Charging System Battery Life Extension o Integrates seamlessly with the secondary battery charger to maintain liftgate batteries during off cycles, extending overall ...

The Cargobull Liftgate Battery Charger helps keep trailers" liftgate batteries topped off and in optimum charge condition. The device takes 480 volts of electrical energy from the Cargobull 625 or 655MT Hybrid TRU to ...

Product Overview MODEL: GP-PHANTOM-330-40 What"s included in this kit? 3x 110w flexible

monocrystalline solar panel Phantom Dual-Source Charger Battery harness Solar harness Sealant tape DUAL CHARGING SYSTEM FOR ...

This kit is designed for fleet managers to solve the troublesome issue of dead lift gate batteries on their trucks. It is a 2 panel flexible solution that uses high Quality Go Power Solar Panels in ...

Solar Liftgate Charging Purkeys" Solar Bolt™ Liftgate Charging System is a solar-powered battery charger that works with a vehicle"s electrical system. It uses solar energy to help keep ...

Purkeys" DIRECT(TM) Nosebox liftgate charging systems fully and efficiently charge liftgate batteries. They boost voltage through a DC/DC converter to more quickly charge batteries and to overcome the voltage drop from the tractor to the ...

A new partnership between Anthony Liftgates, Inc. and eNow, Inc. offers truck owners and operators the option of solar power battery charging to ensure that their liftgate batteries are ...
