Can you use a 12 volt battery box with a solar panel?

You can use the range of 12V adaptors included on the box and if the battery box has Anderson plugs you will be able to easily recharge using a solar panel setup. The best Battery Boxes are great for getting reliable 12 volt and 240 volt power for a range of devices and appliances.

What is a smart solar box?

The Smart Solar Box was discovered by accident (like every other product on ClickBank) during an emergency. What's under the hood is an array of folding solar panels, hooked up to a charge controller which then charges new or used car batteries. You can then use this system to power some of your lights or appliances.
