

What challenges has Vietnam faced with anti-dumping tariffs on solar panels?

This speaks to the challenges Vietnam has faced related to anti-dumping tariffs on solar panels, particularly concerning accusations of illegal transshipments. Some foreign companies have attempted to label Chinese-made solar products as Vietnamese to bypass higher U.S. tariffs.

Will solar power capture the largest market share in Vietnam?

Given these developments and a forward-looking approach, the solar power sector is expected to capture the largest market share in Vietnam over the next five years. Vietnam Briefing is published by Asia Briefing, a subsidiary of Dezan Shira & Associates. We produce material for foreign investors throughout Asia, including ASEAN, China, and India.

Why has the Vietnamese government temporarily suspended solar projects?

To address the rapid growth and grid capacity issues, the Vietnamese government has temporarily suspended new approvals for large-scale solar projects. This measure aims to manage the grid's ability to integrate new capacity and transition from the FiT scheme to an auction-based system for project approval and pricing.

How much solar energy will Vietnam generate in 2025?

In Vietnam, electricity generation within the Solar Energy market is projected to reach 29.43bn kWh in 2025. The country is expected to witness an annual growth rate of 1.29% during the period from 2025 to 2029 (CAGR 2025-2029).

Are solar panels regulated in Vietnam?

Vietnam's solar panel trade is regulated under Decree 26/2023/ND-CP, which outlines the Schedule of Export Tariffs and Preferential Import Tariffs. This decree, effective from July 15, 2023, sets specific import duties on goods, including solar panels and related components.

Why is Vietnam focusing on solar energy?

It was followed by wind energy, which produced 11.4 million kWh (4.1 percent), and biomass, which generated 853 million kWh (0.3 percent). Vietnam's strategic focus on solar energy not only addresses environmental concerns but also supports the nation's economic development and energy security.
