

# Solar power storage box quotation in Ireland 2025

How much does a solar PV system cost in Ireland?

A solar PV system costs between EUR4,600 - EUR8,700 in Ireland in 2025 with the SEAI grant. The exact price will depend on the number and type of solar panels used. You can expect the peak solar output of your solar PV system to be between 1.76kWp to 7.04kWp.

How long do solar panels last in Ireland?

It typically takes around 5-6 years to recoup the cost of solar panels in Ireland. After that, you can enjoy free electricity for the remaining lifespan of your panels. Most solar panels come with a 25-year warranty, so you should be getting renewable energy from your roof for at least that long.

How much do solar panels cost in 2025?

The average price for a typical household is EUR6,800 - EUR7,800 for 12 to 14 solar panels, after taking the EUR1,800 SEAI grant into consideration. Thanks to advances in solar cell technology, improved manufacturing scale and domestic government policy - PV panels cost significantly less in 2025 than in previous years.

How much does a solar grant cost in Ireland?

The grant can reduce the cost of solar panels in Ireland by 25% or even more, and so it's a gamechanger for a typical family looking to go solar. In 2024, the maximum solar grant amount is EUR1,800, but that will be going down by EUR300 to EUR1,800 at the start of 2025. Find out more in our Irish solar grants guide...

How much does a solar storage battery cost?

Adding a standard-sized solar storage battery (5.3kWh) would increase the price by approximately EUR1,700 - EUR2,200. This cost includes the hybrid inverter required to work with the battery. Let's start with a disclaimer - this is just a rough guide to help you decide if you'd like to investigate getting solar PV panels installed on your house.

Should you invest in a solar PV storage battery?

A solar PV storage battery can help homeowners make the most of the energy they generate from their solar panels. A solar battery system offers flexibility. Not just for storing energy for evening use. But also in utilising the low night rates of energy on offer with smart tariffs. Should You Invest in a Battery With Your Solar PV System?
