U2 Black SolarStorm

How much does a bike light cost?

This is a bike light provided by tinydeal.com for review. The light is available here. The light head without the battery pack is sold for \$15. That's like 50% off the price of a head only Yinding unit! The light and battery pack combo retails for about \$24 compared to about \$45 to the Yinding unit.

How do I know if my bike has a battery?

It has a very nice battery indicator which remains on and visible at the back of the bike light so that you are always aware of the amount of charge remaining. As per manufacturer, - Three lights lit on (power 80%), Two lights lit on (50% power 80%) and One light will lit on and will flash three (runtime 30 minutes).
