

Which REPs offer solar buyback plans in Texas?

Texans in a deregulated area can choose a solar buyback plan from the following REPs (so long as they service your municipality): Green Mountain Energy,MP2 Energy,Octopus,Pulse Power,Rhythm,Reliant,or TXU Energy.

Do I NEED Solar to use base batteries?

No,you don't need solar to use our batteries. You don't need solar to use Base because the batteries are designed to store energy directly from the grid. This allows you to access reliable backup power and lower energy costs without relying on solar panels. That said,if you already have solar,Base works seamlessly with it.

Is base a good backup battery solution?

Base offers a significantly less expensive backup battery solution compared to alternatives due to the unique shared business model: Base earns income from the power grid instead of homeowners. This business model allows you to get energy backup without paying tens of thousands of dollars for a traditional generator.

Why should you choose a base Solar System?

An expensive solar system and solar battery also requires a massive upfront investment which often can take longer than the lifespan of the system to pay back. With Base,you pay just a one-time installation cost that pays the team of electricians to install the battery on your home. Base offers fair,fixed rates and reliable backup power.

We install a large battery (from 25 kWh to 50 kWh) at your home for a low upfront cost. You get power from us at competitive rates because our batteries help balance the grid--charging when demand is low discharging when the grid ...
