

How much does a Tesla Powerwall battery cost?

Based on a secret-shopping quote we acquired on Tesla's website for a home near Austin, Texas, a single Tesla Powerwall 3 battery costs \$16,779. Installation costs vary depending on your installer, but our 2025 survey of 1,000 recent home solar customers revealed that the average price to install a Tesla Powerwall is \$7,466.

How much does a Tesla Solar System cost?

For a typical 8 kilowatt (kW) system, homeowners choosing Tesla can expect to spend about \$2.10 to \$2.85 per watt. This rate translates to a range of \$16,000 to \$23,000 before any tax incentives, credits and rebates apply. The following table shows estimated pricing for a variety of Tesla solar systems.

Does Tesla Solar cost more than traditional solar panels?

Customers can also opt for a solar roof, which will cost more than traditional panels. With more than half a million systems installed, according to its website, Tesla Solar has the experience to prove its value. It also guarantees the "lowest price in America," thanks to a price-match guarantee.

How much does a solar battery cost?

Of the 59% of respondents who installed a solar battery with a solar panel system, nearly one-third reported that they picked a Powerwall. Adding an energy storage system to an existing solar system may cost between \$12,000 and \$22,000. So in terms of pricing, a typical solar panel and battery system costs between \$25,000 and \$35,000.

Is Tesla's Solar panel installation price competitive?

As previously mentioned, Tesla's solar panel installation pricing is competitive, but you are always better off using a service like EnergySage to compare quotes from several installers in your area. In terms of the actual experience, there are pros and cons.

Can you buy a PowerWall with a Tesla Solar System?

You can purchase a Powerwall in combination with a Tesla solar system or Tesla solar roof. You can buy a maximum of 10 Powerwalls per purchase, and the cost per unit decreases when you purchase more batteries. Most homes need only one or two batteries to meet their basic energy storage needs.
