

You want to get a Synthesis scanner (like a codex scanner, but also gives standing for simaris and is used for his synthesis targets) and the Sol-Battery Widget. This gives you unlimited ...

If you want standing for the Sol-Battery Widget, do Simaris's daily synthesis task every day. The syntheses and bonus standing for completion will give you anywhere from 8 ...

Astral Autopsy is an Archwing melee mod that allows melee kills to count as scans for the Codex, assuming Codex Scanner charges are available. This mod can be bought from Cephalon Simaris for 100,000. Also works with Synthesis ...

So I picked up the Sol-Battery Widget from Simaris, and when I run a mission, i have infinite charges, and I don't lose any when I scan stuff. Definitely a thing to get early to ...

So I picked up the Sol-Battery Widget from Simaris, and when I run a mission, i have infinite charges, and I don't lose any when I scan stuff. Definitely a thing to get early to save money

Simaris" Synthesis Scanner The worst part is that my time farming points to buy all the scan widget upgrades are wasted. Besides Sol Battery, any other "upgrade" is lame ...

If one has the Sol-Battery Widget, these scans will not drain charges from the Synthesis Scanners, allowing for free scanning. If one has the Sol-Battery Widget, these scans will not drain charges from the Synthesis Scanners, allowing for ...

Hi, I bought the Sol-Battery widget for the Synthesis Scanner, and as I started using it I noticed my scans getting restored at the end of the match but after some time my scans aren't getting ...

As you have higher income and stealth scanning preference, the Sol-Battery Widget will be the least useful of the widgets available to the synthesis scanners, so go for the utility ones first.

Ever since I got the Sol-Battery Widget, I've only needed to carry one Synthesis Scanner around, never needing to get more. I read in the patch notes that Helios could use the synthesis ...

I find all three of the widgets to be fairly useful. The scan time one is pretty essential if you plan on regularly scanning synthesis targets for reputation, I'd argue it even removes the need for ...

Sol-Battery Widget: scanning no longer consumes Scanner charges - 50 000 Standing Cross-Matrix Widget: chance for a single scan to count as two scans - 50 000 Standing We suggest investing into the Sol-Battery ...
