

Wholesale price of containerized renewable power in Serbia

What is the legal setup of the Energy Agency of Serbia?

The legal setup governing the Energy Agency of the Republic of Serbia (AERS) is largely in line with the Energy Community legislation. However, the autonomy of the management related to internal organization and the use of the annual budget is limited by the requirement of the Parliament to adopt statutes and hire additional staff.

Does Serbia subsidize coal & electricity prices?

Serbia heavily subsidizes coal and electricity prices, inhibiting competition. Recently, the Serbian government and EPS have announced ambitious plans to transition to green energy solutions and reduce Serbia's dependence on Russian natural gas.

How much electricity is consumed in Serbia in 2022?

Traded volumes on the day-ahead market were increasing and resulted in 10,5 TWh in 2022. This amounts to over 30% of final electricity consumption. The state-owned company producer and supplier Elektroprivreda Srbije (EPS) continues to be a dominant player in the Serbian electricity market.

What should Serbia do with the electricity integration package?

Serbia should focus on the transposition and implementation of the Electricity Integration Package as a precondition for the coupling of its short-term markets. Serbia should certify the gas transmission and storage operators, grant third party access at the interconnection points, and remove any other obstacles to new market entrants.

Should Serbia certify the gas transmission and storage operators?

Serbia should certify the gas transmission and storage operators, grant third party access at the interconnection points, and remove any other obstacles to new market entrants. Serbia submitted its draft NECP within the prescribed deadline and adopted its long-term strategies on low-emission development building renovation strategy.

Should Serbia transpose the security of gas supply and storage regulations?

Serbia should transpose the Security of Gas Supply and the Storage Regulations. Regulation (EU) 2019/941 on Risk-preparedness in the Electricity Sector should be transposed and its implementation should start with the designation of a competent authority. Serbia made moderate progress in the area of environment.
